### Sustainability Programs at Our Partner Schools (February – September 2024)

#### 1. Hungary – Nyíregyháza Educational Programs for Sustainability

- **World Water Day (March 22):** Students analyzed various water samples and conducted chemical tests to assess water quality.
- **Earth Day (May 7):** Students created posters addressing environmental issues.
- **Sustainability Week (May 22–26):** The school organized a wide range of programs, including workshops on waste separation, biodiversity games, and visual projects.
- **Visit to Michelin (July 2024):** Students visited a sustainable industrial facility.

#### 2. Slovakia – Project Launch and Waste Separation

- The school launched an eTwinning project on sustainable development.
- Criteria were developed and applied to select students participating in the project.
- Waste separation bins were installed at the school to raise awareness of proper waste disposal.
- TikTok videos about sustainable school life were produced.

#### 3. Greece – Larissa Environmental Projects and Research

- **“A Drop, A Life”:** Students created a website about the importance of water.
- **“The River of Larissa”:** Students researched the ecological significance and history of the Pinios River.
- **Visit to the Botanical Garden:** Investigation of the regional flora.
- **Truffle Identification:** During an excursion, students identified various mushroom species and truffles.
- **The Power of Water:** Visit to a watermill and lecture on sustainable energy.
- **Sports Activities along the Pinios River:** Running and exercise in nature.

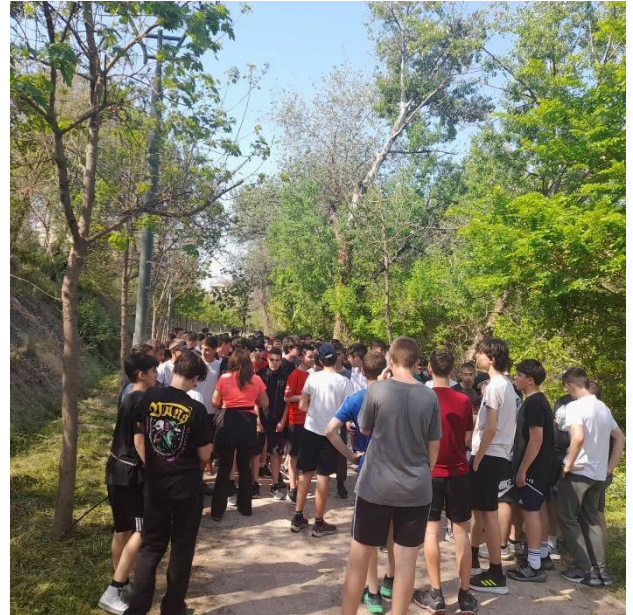

**Finanziert von der  
Europäischen Union**

### **Closing Thoughts**

The sustainability initiatives of the partner schools contribute to the development of responsible and conscious thinking among students.

The goal of the project is to make these programs sustainable in the long term and to inspire future generations to adopt an environmentally conscious lifestyle.
