6. Newsletter

We are pleased to share the latest results and events of our sustainability project, carried out with the participation of four countries (Hungary, Italy, Greece and Slovakia). The activities in November and December show how sustainable thinking and environmental awareness can be integrated into daily life – whether through school projects, local initiatives or international cooperation.

Hungary – Nyíregyháza

The Hungarian students focused primarily on nature conservation and environmental education.

- Film club: Clips from The Lorax to promote sustainable thinking.
- Viewing the episode Our Planet: Forests and discussion on the importance of global forest protection.
- Excursion: Winners of the Curie National Environmental Competition took part in a trip to Aggtelek National Park.
- Lectures: Students gave presentations on the importance of water and ways to measure water quality.

Italy – Sciacca

The Italian partner school focused on sustainable Christmas celebrations and the importance of waste reduction.

- Sustainable Christmas programmes: Presentation of sustainable Christmas trees and weighing individual choices (artificial vs. real).
- Creative recycling workshops: Making decorations from recycled materials (paper, plastic, textiles).
- Building alternative Christmas trees from recycled materials such as books or bottles.
- Interactive workshops:
 - Brainstorming on environmentally friendly holiday design.
 - Educational programmes on waste reduction and conscious consumer behaviour.

Greece – Larissa

The Greek students worked actively in the areas of recycling, sustainable production and reducing the ecological footprint.

- Waste prevention initiatives:
 - Participation in the European Week for Waste Reduction.
 - PlasTerminators programme: Collection, recycling and creative reuse of plastics.
 - Registration of the school in the Plastic Clever Schools programme.
- Production of sustainable products:
 - Recycling old candles and making new candles.
 - Production of natural cosmetics and soaps from local organic raw materials.
- Conscious shopping and awareness raising:
 - Sustainable shopping at the local market.
 - Organisation of a Christmas bazaar with recycled products.
 - Art workshops on climate change.

Slovakia – Zlaté Moravce

The Slovak partner school focused on sustainable tourism and the portrayal of environmental awareness in the media.

- Digital content:

- Creation of a TikTok video on sustainable sports tourism.
- Podcast recording about the project objectives with the coordinator.

- Project planning and preparation:

- Creation of the programme for the meeting in Slovakia in February 2025.
- Organisation and arrangement of travel for the project partners.

- Environmental actions:

- Participation in waste collection actions, especially for paper recycling.

Conclusion and next steps

The activities of recent months have shown that small steps can bring about big changes. The various actions in the participating countries have helped students become more environmentally aware and actively participate in sustainability initiatives.

In the coming months we will continue our cooperation and meet in Slovakia in February to develop even more inspiring and creative ideas for our project!
